

2026 Mathematics Contest

Hello,

Here is some last minute Contest information and reminders. Please read the information below:

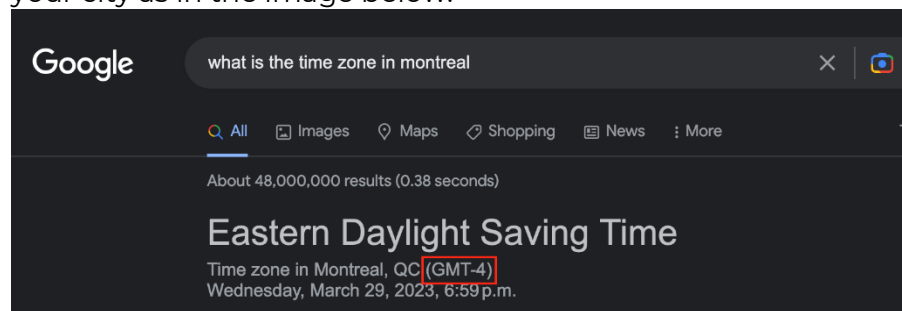

Teachers

- Verify that you have registered the right time zone.

To find out your time zone, please visit [Google.ca](https://www.google.ca) and enter :
“What is the time zone in” followed by your city.

Eg: *What is the time zone in Montreal*

This search will give you a result mentioning the GMT of your city as in the image below.

- Make sure that all the names and surnames of your students have been registered.
- Each student will use the same username and the same password that he has used for the online practice test.
- The link is still the same: <https://mathematica-test.ca>.
- Verify that the starting time of each contest has been established.
- The last day to register any data will be **May 06, 2026**.

To be communicated to participants

- It is important to be online about ten minutes before the starting time of each contest. Prepare everything that you need: paper, pencil, ruler, calculator (if permitted) etc.
- Choose your preferred language (important to do this before starting the Contest)
- Choose your contest by clicking on **contest** in the menu on the left of the screen, then on the button **Start Contest** located on the right-hand side.
- Do not lose time on a specific problem; move on to the next one.
